

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay.

In accordance with 37 CFR 1.475(b) "A ... national stage application containing claims to different categories of invention will be considered to have unity of invention if the claims are drawn only to one of the following combinations of categories: (1) A product and a process specially adapted for the manufacture of said product." This is exactly the case here, so that restriction is not appropriate.

If the examiner determines that the claims are not to a product and method of making it, applicant provisionally elects the method of claims 2 to 10, with traverse.

Respectfully submitted,
K.F. Ross P.C.
